On The Go Pattern Selection - Easy Gun Selector

Simple gun pattern selection, directly from the main console. No need to stop working and change wiring. With the VEZOS E.G.S. pattern selection while on the go simply adjust the gun pattern to support single, double & skip lines.

EXCLUSIVE

Hand Brake System

Easy hand brake secure system, apply brake from console to activate the disk

Holder - Cup or Storage Space

Clever thinking!!! This extra holder on the ProStripe console, has been designed especially for you. On the job and don't have time for a coffee break? No need to worry, enjoy a hot cup of coffee while striping. Use the holder also for storing extra gun tips or anything else needed on the job.

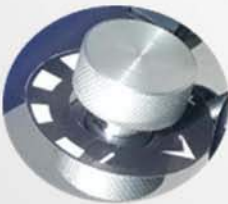

EXCLUSIVE

Gun Pressure Adjustment Control

Easy gun pressure adjustment from the main console, for desired result.

Honda Engine Throttle

Adjust the Honda engine revs according to the jobs demands.

Kill Switch

Console operated kill switch for turning off the Honda engine.

Motorcycle Type Motion Control System

VEZOS Motorcycle type motion control, is an easy to control driving system installed on the ProStripe Hydraulic Self-Propelled units. As simple as driving a motorcycle, with no complex pedals, buttons or extra levers. This one handed motion control, has a common left-right movement system allowing the SP unit to work with or without the FlipDrive seat, especially when tackling uphill roads with a heavy loaded unit.

EXCLUSIVE

ProStripe 300 & 400 editions, are equipped with an easy to work digital monitor, offering on the job data and life time proof of the units run times.

Set the digital display to your required measurements , adjust the line widths, monitor the engines performance, measure job distance & material consumption.

VEZOS Digital Monitor Display is located in the middle of the units console, easy to follow when walking behind the unit or even when riding the FlipDrive in standing or sitting position.

Job Panel - Digital Monitor Display

Pallet Concept

VEZOS Unique Features

VEZOS designs are cost saving on the job, but before the units arrive to their final destination - you the end-user - they are transported worldwide. Now you may think that this fact does not interest or concern you, well this is where the whole misconception is... The more space a product takes up, the higher the transport cost, therefore increase in your purchasing price! This is a fact that VEZOS takes very seriously and hopes to achieve the best value/product equation possible. How? By thinking out of the box, by smart innovative solutions.

VEZOS ProStripe range all fit on a single standard European pallet 120cm x 80cm!

Foldable Chassis

Fits in city van

VEZOS Unique Features

And of course it doesn't end here, ok transport is a major factor and has saved cost, but what happens when you need to fit the unit through a doorway, at the end of the job when you need to store your ProStripe unit and most importantly when you need to take the unit to the job site?

VEZOS has thought all this out! **IT FITS EVERYWHERE** Pass with ease the ProStripe through any standard doorway, store it in your business, garage or warehouse without taking up the entire space and finally fit the ProStripe in any small city van or even Station Wagon that you may own, without having to bring it to parts, due to its foldable design.

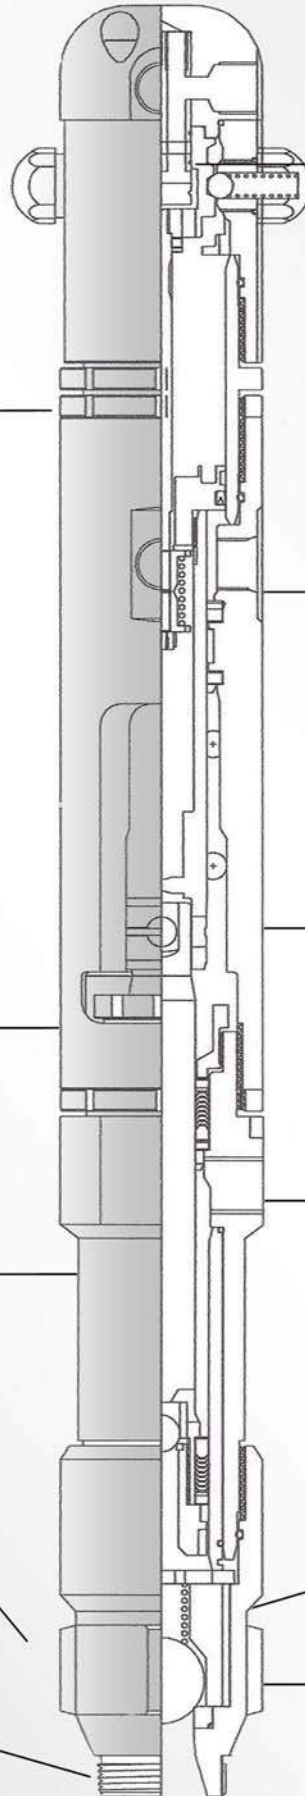

Hydraulic Slow Stroke Pump

Quality Test Pass

Long sized slow stroke pump
(improved durability)

Hydraulic valve designed with oversized passages for improved flow
(improved durability)

Hard chromed hydraulic rod
(improved durability)

Easy release pump connection for on the spot service
(improved handling)

SST cylinder (improved durability)

Adjustable packing nut
(improved handling)

Hard chromed pump rod
(improved durability)

Spring loaded Inlet valve for quick closing even with heavy materials

No tools release inlet valve
(improved handling)

Extreme size 1 1/4" inlet valve for best handling with heavy materials
(improved performance)

Quick connection for inlet attachments
(improved handling)

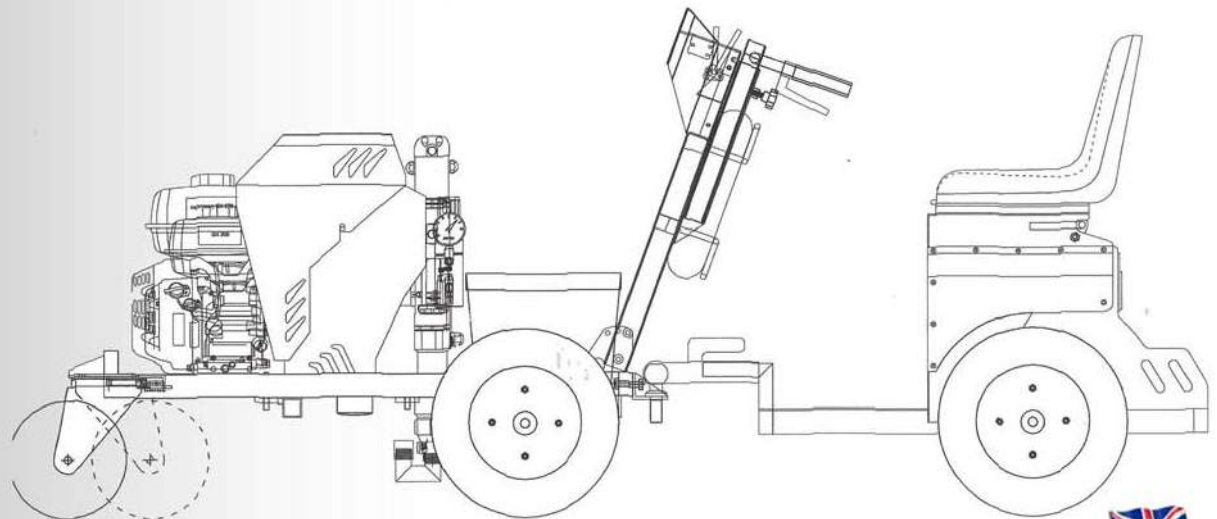

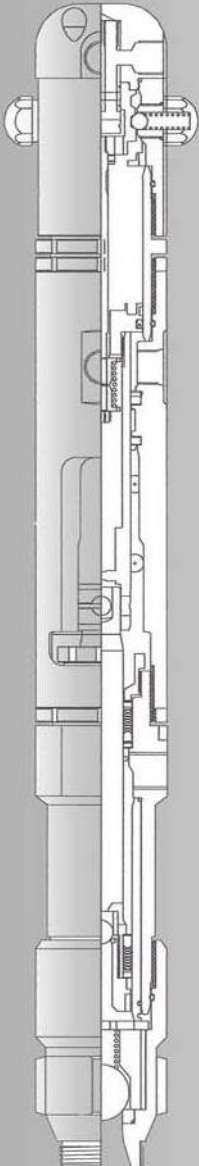

Quality Test Pass

Quality Test

VEZOS High Standard Test

VEZOS guarantees that every single pump that leave the production line, undertakes a high standard 30 min quality test, in full power and pressure, ensuring correct function of the equipment.

Warranty 3+3

VEZOS 6 Year Plan

VEZOS offers a reliable warranty for each hydraulic airless striper, ensuring users that they are covered by the VEZOS manufacturers warranty.

Now VEZOS is the first airless manufacturer to offer a **6 year warranty plan**, simply register your unit after the purchase and VEZOS will take care of the rest.

Flip Drive

Double Ride Option

“ Transform Concept ”

FlipDrive, Double ride Option - "Transform Concept"

Connect the FlipDrive to all Self-Propelled VEZOS ProStripe models, on the spot - no tool, flip system for overall visibility on the job. Hidden non-slip storage space for tools. Extra storage space for warning cones, gas or paint tank. No complex pedals for steering the FlipDrive, simply use the ProStripe steering handles.

Enjoy the ride !!!

Unmatched Visibility

VEZOS Unique Features

Carefully designed, the ProStripe Self-Propelled striper with FlipDrive Seat, increases visibility even when striping with the bead hopper attached.

Choose between a sitting or standing position increasing the visibility of the road.

VEZOS ProStripe offers a panoramic view of the road & eliminates the blind areas, *even in sitting position with the bead hopper on !*
