# Double Ride Line Striping Seat

# VEZOS

**Think different. Think strong!**

design · production · distribution

## Transform your line striper

### Double Ride System

Connect the **FlipDrive** to all Self-Propelled VEZOS ProStripe models, on the spot, no tool, flip system for overall visibility on the job. Hidden non-slip storage space for tools. Extra storage space for warning cones, gas or paint tank. No complex pedals for steering the FlipDrive, simply use the ProStripe steering handles.

**Enjoy the ride !!!**

## FlipDrive Applications

- ◇ Parking Lots
- ◇ Highway line striping
- ◇ Local road marking
- ◇ Large construction sites
- ◇ School & Athletic fields marking

## Hidden Storage Space

### Non-Slip Surface

FlipDrive has a hidden storage space, allow its users to carry along a tool box, accessories or even personal belongings when on the job.

Lift the lever once for ride position and twice for hidden compartment.

- ◇ Hidden compartments
- ◇ Leather type seat
- ◇ Industrial wheels

**concept TRANSFORM**

## FlipDrive, Double ride Option - " Transform Concept"

"Transform Concept" can be found on multiple VEZOS products & designs. It all starts off with an aim, an innovative idea.

VEZOS ProStripe Line Stripers offer road marking contractors multiple innovative & cost effective solutions.

For more information see manual: 9877140 .

## Ride along

### Platform

ProStripe self propelled line stripers also adapt to VEZOS drive along platform.

## FlipDrive - Seating Position

### Steady Line Striping

Connect the FlipDrive system to all Self-Propelled ProStripe line strippers, on the spot with no connection tools needed.

Take advantage of the FlipDrive hidden away storage space, to store your tool box. When operating in a sitting position, you can carry along road cones or even a gas tank, enabling you to fill up the Honda engine without needing extra assistance.

**EXCLUSIVE**

## FlipDrive - Standing Position

### Panoramic Road View

**Innovative thinking !!** Transform the FlipDrive ride into a standing platform by simply lifting the seat lever, raise the line striper's handle and use the leaning system to gain the best control over the complete unit. When operating in a standing position, you gain the best visibility of the entire jobsite, without any limitations. Test this even with the bead hopper in place and be amazed with the panoramic view.

## "Double Ride Method Line Striping Seat "

### FlipDrive Double Ride Seat

Increased visibility

Carefully designed, the ProStripe Self-Propelled striper with VEZOS innovative FlipDrive seat, increases visibility even when striping with the bead hopper attached.

Choose between a sitting or standing position increasing the visibility of the road.

VEZOS ProStripe line strippers offer a panoramic view of the road & eliminates the blind areas, **even in sitting position with the bead hopper on !**
