

### Z-SPRAY Pneumatic Paint Sprayer

VEZOS Pneumatic pumps Z-SPRAY are suitable for all protective coating jobs, designed for the toughest tasks, reducing downtime and repair cost due to an easy maintenance system. Z-SPRAY pumps are light weighted, making these pneumatic pumps easy to transport and maneuver around the site / vessel.

VEZOS has been providing marine solutions since 1970, gaining the know-how of the industry over the years. When designing the Z-SPRAY range, the VEZOS engineering team kept in mind a serious issue that concerned its users - the units size.

Z-SPRAY pumps focus on easy transportation in and around the job site, making it possible for shipping companies to transport the pump to their vessels by air freight when needed. The power of the airless pump allows multiple users and long paint hoses without losing the strength of the sprayer.

#### • Applications

- Marine / ship maintenance
- Roof coatings
- Railcar & transport vehicles
- Bridge construction/ maintenance
- Off-shore platforms
- Container manufacturing / maintenance

#### • Materials

- Heavy VOC Paints
- Epoxy / Solvent based
- Block fillers / Waterborne
- Rubberized / Elastomeric
- Latex / Primers

#### • Features

- Powerful air motor
- Anti-freeze design
- Built-in filter
- Heavy duty cart
- Pressure adjustment
- Slow stroke pump 70mm
- Hard chrome pump
- Removable suction hose
- Large industrial wheels

Sprayer Series	Z-SPRAY	Z-SPRAY	Z-SPRAY	Z-SPRAY	Z-SPRAY
Part Number	23.1002800	23.1002835	23.1002801	23.1002836	23.1002837
Max. Pressure	175 bar/17.5 mpa	210 bar/21.0 mpa	280 bar/28.0 mpa	343 bar/34.3 mpa	476 bar/47.6 mpa
Fluid Pressure Ratio	25:1	30:1	40:1	50:1	68:1
Displacement Pump	67cc	67cc	67cc	67cc	67cc
Weight	44 kg	46 kg	57 kg	59 kg	65 kg
